"the joy of learning music is alive!"

Piano/ Keyboard

For 4 ½ - 7 years. A unique keyboard course renowned for making learning music fun. Children enjoy the wide variety of music. From classical to rock'n'roll, in no time you will be amazed at how much they can do. Theory, listening, reading, composing, and all musical skills are developed in a comprehensive approach so your child will develop into a young musician.

These keyboard courses give students foundation music skills, which is ideal preparation for playing in a school band or orchestra in the future.

Junior Keys - Music Munchkins

For beginner students younger than 7 years old. Children learn to play piano and unlike traditional music training also gain a good grounding in all other musical skills including:

- Ear training for pitch (ability to identify musical notes by ear)
- Music theory (understanding the symbols used in music)
- Music reading
- Composition
- Keyboard harmony (the underlying chord structures, patterns and systems that all music is built on).
